

Metalink at a Glance

Overview

Metalink Ltd. (NASDAQ: MTLK) is a leading provider of high performance wireless and wireline broadband communication silicon solutions. Metalink's WLAN and DSL technologies are designed to enable true broadband connectivity in every home, and its products revolutionize the broadband experience by facilitating the convergence of telecommunication, networking and entertainment.

Metalink's *WLANPlus*[™] is a high-throughput, 802.11n-draft-compliant wireless LAN technology optimized for the networked home entertainment environment. Featuring advanced MIMO technology and full support of QoS, and operating in both 2.4GHz and 5GHz bands, *WLANPlus* enables multi-room networking of multiple high-definition video streams. In addition, Metalink offers a broad range of symmetric DSL and VDSL products used by operators as a cost-effective network upgrade to support triple-play services.
